Design & Dev Tools: Adobe Illustrator, Adobe Photoshop, Unity3D

Professional: Performance Optimisation, Problem Solving, Collaboration & Teamwork

EMPLOYMENT HISTORY

Website Developer — Zywave

January 2024 — July 2026

- Collaborated with cross-functional teams to design and develop custom WordPress themes tailored to client requirements.
- Built custom WordPress page sections and dynamic content using PHP and the ACF plugin.
- Designed responsive website layouts and interfaces following HTML5/CSS3 best practices, including QA and site testing.
- Deployed and maintained websites end-to-end, including DNS configuration and hosting environment setup.

Website Developer — Snapscale

November 2021 — January 2024

- Collaborated with cross-functional teams to develop, test and deploy responsive web applications using HTML5, CSS3 and JavaScript across desktop, tablet and mobile.
- Built dynamic web pages using custom builder tools and plugins within WordPress, following HTML/CSS best practices.
- Stayed current with industry trends and emerging technologies, providing recommendations for continuous improvement.

Website Developer — Carve

January 2020 — November 2021

- Developed secure payment gateway integrations for e-commerce websites using WooCommerce, supporting 3,000+ users.
- Developed and integrated APIs with third-party e-commerce platforms for seamless order processing and data synchronisation.
- Configured server-side environments and databases, and performed website migration, maintenance and performance checks.
